Maths

Independent Task: To identify, describe and classify shapes based on the properties
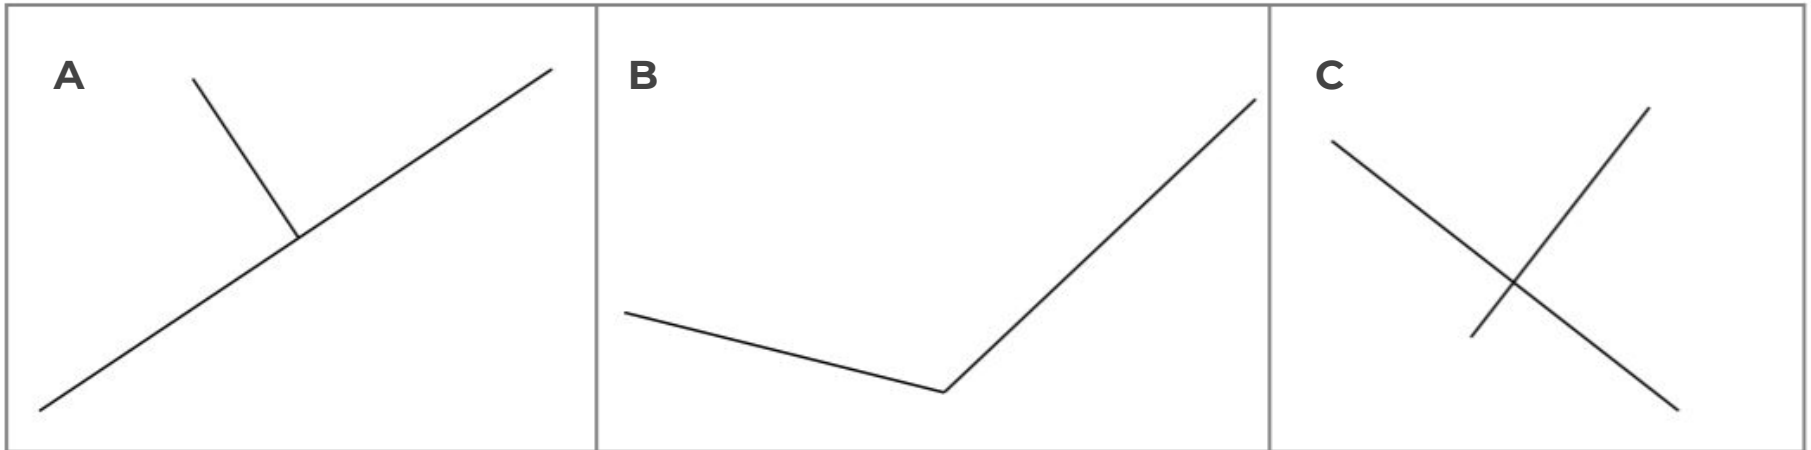

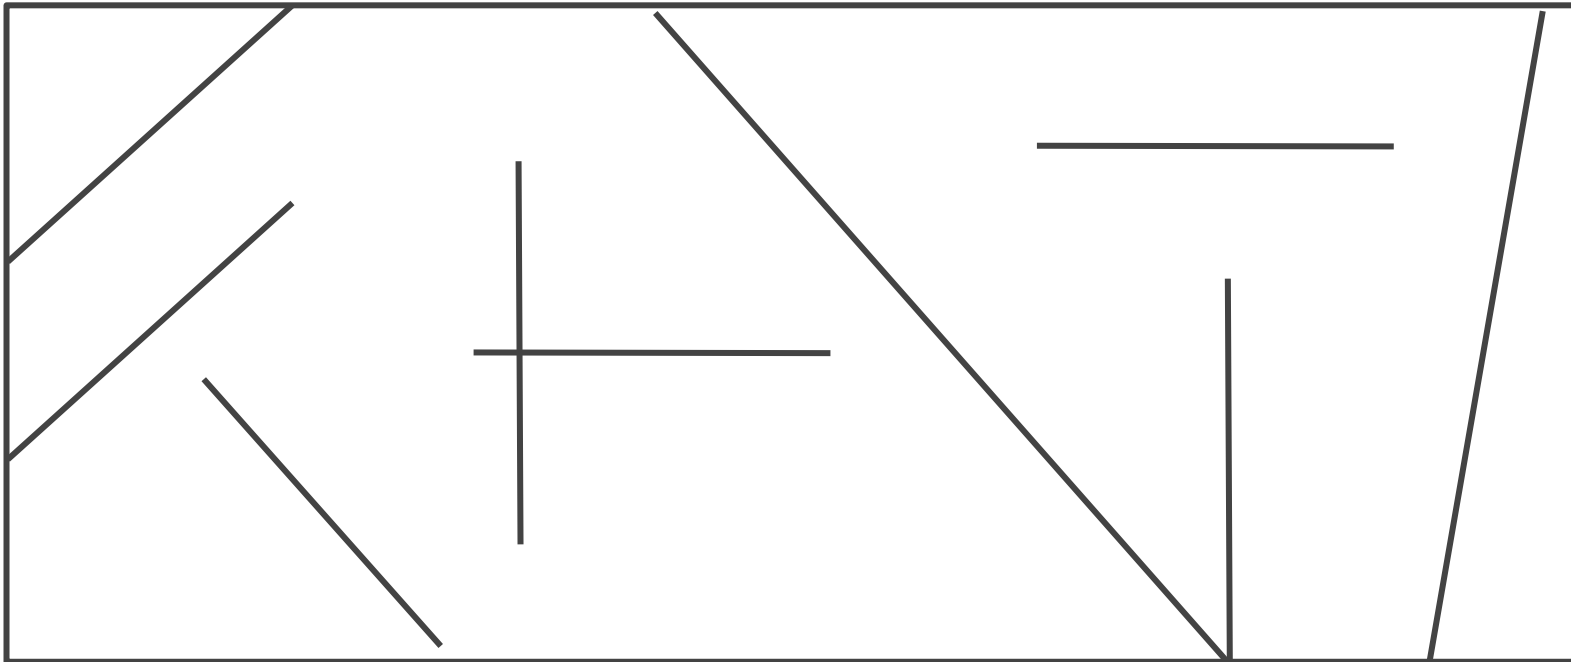

Miss Miles

Independent Task

For each of the sets of lines, write how many sets of perpendicular lines they have and how many right angles. Do you see a pattern?

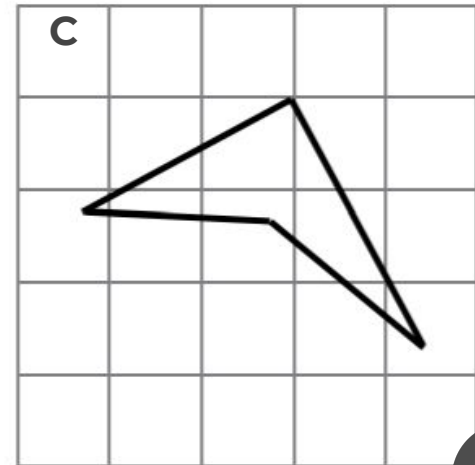

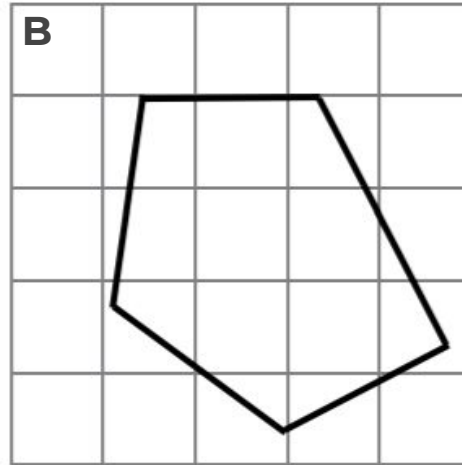

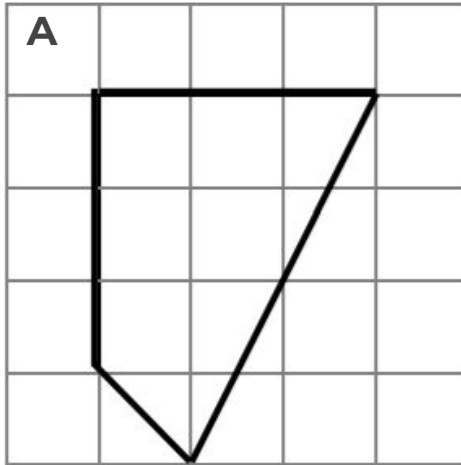

2

Independent Task

Can you identify lines that are perpendicular to each other (would meet in a right angle)? Circle them in different colours.

Independent Task

1. **Write the name of each shape.**
2. **Write down 3 of its properties.**
3. **Identify how many right angles and perpendicular lines it has.**

4

Independent Task

Copy down each of these lines. Draw another line to make a right angle.
