Computing

Lesson 6: Evaluate a Project

IT Project Management

Steve Gibson

Materials from the Teach Computing Curriculum created by the National Centre for Computing Education

Task 1 - Evaluate a project

Project scope

What was the project about?

Initiation stage

What did you do in this stage?

Task 1 - Evaluate a project

Planning stage
How did you go about planning the project?

Execution stage
What resources did you use and how successful were the outcomes?

Task 1 - Evaluate a project

Conclusion
Summarise the project

Recommendations
What can be improved? Why?
