Solving word problems

Mrs Crane

Independent Task

Did you draw a bar model to help you?

1. Ellie baked a cake. She added 55g of flour. Then she added 35g more. How much flour is there now?

2. Anna had £33. She spent £17 on a toy car. How much money does she have now?

3. Lisa measures some wood to build a toy train. The train needs to be 80cm long. She has 62cm of wood. How much more wood does she need?

Independent Task

Did you draw a bar model to help you?

4. A packet of crisps costs 55p and a bottle of water costs 39p. How much do they both cost?

5. Jay had a paddling pool. It has a capacity of 90 litres of water. There is 44 litres of water in Jay's paddling pool. How many more litres of water can Jay add to his paddling pool until it is full?

6. Alice walked 58m to her bus stop and then walked 35m to school. How far did she walk altogether?
