Unit 6: Fractions and Decimals Improper fractions

Independent Task

Mr Whitehead

True or False?

$$4.2 = \frac{20}{5}$$

$$\frac{33}{6} = 5\frac{1}{2}$$

$$3\frac{3}{5} = \frac{36}{10}$$

$$2.75 = \frac{20}{8}$$

How can you find out if the correct symbol has been used?
If false, what should the symbol be?
