

Independent Task

Questions

Look at each grid and decide which is the odd one out.

How do you know?

Can you find a different number in the same grid that is the odd one out?

1)

5231	408
6402	2503

2)

443	353
321	423

3)

4236	1238
9237	5023

4)

23	425
1	3022
