

Adding and Subtracting 1000 Worksheet

Mathematics

Mrs Behan

Independent task

Use an efficient mental strategy to complete the calculations. Draw a pictorial representation of each calculation.

Challenge: Think of a word problem to go with each calculation.

$$\boxed{} + 1000 = 1243$$

$$2225 \bigcirc 1000 = 1225$$

$$2114 - 1000 = \boxed{}$$

$$1000 + 2114 = \boxed{}$$

$$3315 = 1000 + \boxed{}$$

$$1345 = \boxed{} - 1000$$

Preet scored 2175 points on the first level of her game. She also got a 1000 point bonus for completing it quickly. What was her total score for the first level?

What calculation is being represented here?
