# Activity 3 - The Conversation Tree

The Conversation Tree a great social skills activity by Michelle Garcia Winner.

Cut out each pieces of coloured paper. Each person in the conversation gets to be a different color.

The group begin by starting a conversation with each other.

As they participate appropriately their color square will be placed on the tree. As people participate, the coloured pieces of paper will become the tree trunk.

The idea is to make the tree as multi-colored and tall as possible.

If someone talks out of turn, changes the subject, goes off track, doesn't listen to the others speaking etc. the branches are added because the students are "off-topic".

# More Talking Topics
