Iron
Tin
Lead
Copper
Silver
Gold
Platinum

Independent Task

1. Place the metals W, X, Y and Z in order of reactivity, from most to least.
2. Complete this sentence.

I know _____ is the most reactive because

1. How do the results show that none of the metals were more reactive than magnesium

Independent Task Answers

1. Most W, Y, X, Z least
1. I know **W** is the most reactive because it produced the highest temperature increase with copper nitrate or W reacted with **both** copper nitrate and zinc chloride
1. None of the metals were able to react with magnesium sulfate or none of the metals could displace magnesium (from magnesium sulfate)
